### Aims and Objectives

1. Pakistan Aspirin Foundation will ensure that through awareness regarding uses of Aspirin, maximum benefit is provided as a protective barrier around Aspirin in general. It will provide consumers, doctors, pharmacists and related health professionals up-to-date and accurate scientific information on Aspirin.
2. To ensure that Aspirin is regarded by doctors, health professionals, regulatory bodies and consumers as an ingredient of prime importance in order to make an informed decision regarding their choice of medication and treatment.
3. The Foundation shall be a non-profit organization and shall not have a manufacturing company bias.
4. To investigate and communicate new uses of Aspirin and to encourage research into all aspects of use of Aspirin, anti-thrombotic and anti-atherosclerotic agents.
5. To provide a regular flow of information to consumers and health professionals thus raising the profile and enhancing the scientific image of Aspirin in Pakistan.
